Well, I'm not sure I have enough background on NHPA requirements (and on related tribal interests and issues) to be able to provide any direct feedback to ODSL about some of these points. I'm not sure that some of the points that have been raised by the Umatilla Tribe are accurate either.

Hi Yvonne,

Audie Huber, who, I think you know, is the Intergovernmental Affairs Coordinator, Department of Natural Resources, for the Cayuse-Umatilla, Walla Walla and Confederated Tribes of the Umatilla Indians Reservation, is currently preparing a letter to DSL based on the points outlined in these attached, Nov 7, 2012 notes that Lori W-D took in a meeting with Audie and I think Carey Miller, back in 2012. This 2012 meeting came to light in the Natural Resources Work Group Meeting (Barbe and I attended) that was held yesterday. These same issues that are front and center for the Umatilla will no doubt be shared by most or all the other Tribes.

Meliah and Vicki are attending the Cultural Resource Cluster Meeting in Pendleton on December 4 (I believe) and Barbe and I are preparing Vicki and Meliah on Monday, November 25. This is why I'm requesting your feedback by Friday, noon if possible.

I'd like your feedback on each of the points as they pertain to the federal role, including of course, EPA's specific role.

Sorry for the urgency, but I think its warranted. Thanks!

Eric
